CHILIAN CONSPIRACY

To Aid in the Escape of a Prisoner Wanted in This Country.

A PERFECT LEGION OF FRIENDS

Made Open Efforts to Take Him Out of the Officer's Custody.

SOME RATHER PECULIAR FEATURES

NEW YORK, August 14 .- Acting Superintendent Byrnes submitted to the Police Board this afternoon Detective Sergeant Phil Reilly's report of his unsuccessful trip back from Chili to this city with William H. Bushnell, the thief and forger, to get possession of whom he fought the Chilian authorities nine months. The detective's stor; follows the case step by step after the surrender of the prisoner until his escape

The surrender, he says, was unwillingly and grudgingly made, so much so that, ap-prehensive of trouble, he called upon the American Legation to demand of the Chilian Minister some sort of document steting that Bushnell was a prisoner surrendered to him by process of law; but the Minister refused to give such a paper as he requested.

A PECULIAR PROCEEDING. Bushnell was given into his hands by the Chief of Police on July 13, without a line or a scrap of writing to show any authority for holding him. This was the entering

wedge of the treachery. A receipt for the surrender was demanded of Reilly, but nothing given him.

They were on board the steamer Imperial, a three-decker and one of the largest South American coasters. A great number of Bushneil's friends were on board. They seemed to be everywhere, and made no consecutive of company of coasters. eccalment of openly advising Bushnell to escape. Their argument was that the de-tective had no authority for holding him, and that he could go when and wherever

he pleased.

Bushnell thoroughly understood the situation, but firmly declined to take the proftered advice. Bushnell insisted on going to New York. On the steamer he was to all appearance the only champion the detective had. Reilly did not like the look of things and went to the Captain of the steamer with a request for protection and assistance in holding his prisoner.

WORSE AND MORE OF IT. The Captain said flatly that he would not

have Bushnell considered a prisoner or treated as one for one moment. The Cap-tain also informed the prisoner, and told him that while on board his ship he could go where, and do whatever he pleased. Every one of the officers of the ship was a friend of the prisoner's too, and also at least one of the passengers, one Rickelman, who was apparently there for the express purpose of aiding Bushnell to escape. press purpose of aiding Bushnell to escape. At every point where the steamer stopped this man received telegraphic dispatches and conferred aside with the prisoner. At every port, too, Bushnell's friends came aboard in droves. They seemed to fairly overrun the country, and were loud in their demands that he should go with them, and let the American detective go home alone. At Tallal, the last stopping place before Iquique, the Governor of the Province came on board with others and added his importunities to Bushnell to leave, and extended

tunities to Bushnell to leave, and extended the hospitality of the province to the thief. Bushnell, however, refused to accept the

PLENTY OF FRIENDS.

The steamer arrived in Iquique Bay on the evening of July 17. Friends of Bush-nell came on board at once. By the next morning there were more than 100 of them on board the vessel. Reilly obtained from Mr. Trambull, the American Consul there, a man to help him look after the prisoner. Both of them kept a sharp eye on the movements of Bushnell all the time.

aents of Bushnell all the time.

The prisoner remained apparently inflexible in his determination to come to this city, and his friends were getting ready to leave the steamer. The vessel had weighed anchor and was about to proceed when Bushnell went to the stern of the vessel on the middle deck. Two minutes later when

sought he was missing.

A thorough search was made of the steamer, but he could not be found. There was nothing left for the detective but to proceed to the next port, besides the prisoner might still be hidden on board, but he was not. From one of the deckhands the detective learned during the voyage that Bushnell had been seen sliding down the stern of the steamer on a rope, conveniently tied to the flagstaff by one of the ship's

EVERYTHING READY.

Under the overhanging stern was a four-oared boat waiting for him, into which he sprang, and was rowed ashore, while the steamer proceeded on her way. The detec-tive acknowledged himself defeated. "At the next port Reilly had to wait four days for the next steamer back. It was in the middle of winter and the roads were impassable. He tried to telegraph but

When a chance offered he went on to Lima and saw the authorities, but all hope or recapturing the prisoner under the circumstances was in vain, and he turned back home empty handed. Reilly sums up with the statement that beyond a doubt there was from the first a regular conspiracy to rescue the prisoner, and that the captain and officers of the steamer were in the conspiracy. Reilly submitted letters and reports of interviews to substantiate these statements.

After the prisoner's escape the passenger Rickelman demanded the prisoner's baggage. Reilly refused to surrender it, but on the following day it was surrendered by order of the captain. The report was laid over for consideration at the next meeting of the board two weeks hence.

DISGUSTED WITH HIS LUCK.

A Newly Appointed Postmuster Gets Drunk Because He Can't Give Bonds.

PEPECIAL TELEGRAM TO THE DISPATCH. COLUMBIA, S. C., August 14 .- There is trouble in Cheraw, this State, about its postmaster. Recently Henry Rakestraw, colored, was appointed postmaster at that place. Early this week he went to Darlington, a larger town, to get bondsmen. After making vain efforts in this direction After making vain enors in this direction he became disgusted, got drunk, and pro-ceeded to handle the paint brush. He was soon arrested and taken to the guardhouse, where, in detault of \$10, he was sent to jail

for ten days.

A gentleman of Darlington took occasion to telegraph the situation to the Postmaster General. Mr. Wanamaker did not reply, and finally the Democrats opened a subscription, the fine was paid, and the new ap-pointee given a ticket home. He will be unable to give bond.

PRAIRIE FIRES IN MONTANA.

A Finsh of Lightning the Cause of an Im-

mense Confingration. MILES CITY, MONT., August 14 .- The prairies a few miles to the north and southeast of Miles City are on fire. The fires cover several thousand acres in extent. The bodies of timber north and south of town are separate from each other, but seem to have separate from each other, but seem to have caught fire simultaneously. Lightning during the storm of Sunday night is the cause of the fires. The flames approached the ranch of George Rhodes, but the farm hands managed to fight it away.

A body of men from this place are preparing to go out and fight the flames. A heavy smoke is langing over the town, and the heat from the fires is very precentible.

the heat from the fires is very perceptible. Extensive prairie fires are raging in this county below Fallon, traveling toward Glendive, and it is feared the range in these

HOW TO USE ELIXIR.

Sr. Louis Physician Makes Some Startling Discoveries-Injecting Death Into a Patient's System-Rules for the Guldance of Brown-Sequard's Disciples.

Sr. Louis, August 14 .- Dr. A. B. Shaw, of this city, who has been making micro-scopic examinations of Brown-Sequard "Elixir" discovered, while experimenting Saturday last, that the fluid was alive with ountless bacteria, although but three hours had elapsed since the clixir was prepared. Bacillus tuberculosis, the bacillus that is supposed to cause tuberculosis, were fond in great quantity, thousands being in a single drop of the mixture. Dr. Shaw could arrive at but one conclusion, namely, that the glands were from a sheep infected with the bacili of tubercle, as the mortar and pestle and the distilled water had been thoroughly sterilized before the mixture was made. Dr. Shaw estimated that in a drachm ten millions of these bacilli have been

put into the system, each one capable of multiplying itself indefinitely.

The danger underlying such treatment can readily be seen, and the chances would be ten to one that tubercolosis in some form would manifest itself in the person inoculated.

Dr. Shaw has since made other experiments, and in two of them the bacillus tuberculosis was discovered. The rod-shaped bacilli were also found in several samples of mixture made.

Dr. Shaw said: "I would lay down the collection of the allipsis in the collection of the allipsis in the collection of the allipsis in the collection."

following rules for the use of the elixir in the view of my discoveries:

First—The laity should not use the injection upon themselves.

Second—Physicians should not use it until it has been submitted to microscopic examination to ascertain whether it is infected with lacteria or not, and care should be taken that the glanis are taken from a perfectly healthy animal.

animal.

Third—All instruments and vessels should be thoroughly sterilized, and even the distilled water should not be used until examined

Yet Heard From. NEW YORK, August 14.—The Inman steamer City of New York, which left Queenstown at 2 P. M. last Thursday, has just been reported, nothing having been heard yet of the new White Star steamer Teutonic, which left Queens-town the same hour as the City of New

Could Not Stand the Strain. MORA, MINN., August 14.-Eric Troolin was crossing the Ann river bridge yesterday with his threshing machine and traction engine, and when part way across the bridge it collapsed, and man and machine were precipitated into the river. Hans Petersen, the engineer, was killed instantly, but the others escaped without serious injury.

LATE NEWS IN BRIEF.

—The Burton building, at the corner of Clinton and Van Buren streets, Chicago, which was gutted by fire some weeks ago, collapsed this morning, burying a number of workmen in the rains. Joseph Hopp, killed, and Nick Sever, in a dying condition, were removed. No one clse was seriously thjured.

—At San Diego, Cal., Tuesday afternoon, Superior Judge W. L. Pierce was shot and seriously wounded by W. S. Clendennin. The Judge was talking with ex-Governor Murray, of Utah, when Clendennin passed down the street, stopped suddenly and drawing a revolver, shot Judge Pierce in the back. A judicial opinion by Pierce, unfavorable to Clendennin, is understood to be the cause of the shooting.

—About 1 o'clock yesterday morning, as Chief of Police Gaston, of Jackson, Tenm, was walking around the jail he was fired upon by negroes, receiving ten buck shot in his face and breast. He will die. Several negrees were lying around the jail in the weeds and grass, supposing that the negro porter of the Arlington Hotel, who is in jail for assisting a young white girt to clope, was to be lynched during the night. When discovered by Gaston they started to run, and being fired upon they returned the fire with the above result. No arrests have been made.

—All the Northwestern country seems to be burning up in forest fires. The smoke has been so dense in Portland for the last two or three weeks that for a time it was impossible to see far up the street and the sun and moon looked like great balls of fire. In the harbor the smoke has the effect of fog and steamers have been required to blow their whistles every few minutes to avoid collisions. It is estimated that the total damage by forest fires in the Northwest this year wil amount to nearly \$20,000. Several farm houses have been burned with the stables and produce and stores with quantities of wheat of this year's crop. Several thousand cords of wood have bee

Indigestion

IS not only a distressing complaint, of itself, but, by causing the blood to come depraved and the system enfeebled, is the parent of innumerable maladies. That Ayer's Sarsaparilla is the best cure for Indigestion, even when complicated with Liver Complaint, is proved by the following testimony from Mrs. Joseph Lake, of Brockway Centre, Mich .: -

Centre, Mich.:—

"Liver complaint and indigestion made my life a burden and came near ending my existence. For more than four years I suffered untold agony, was reduced almost to a skeleton, and hardly had strength to drag myself about. All kinds of food distressed me, and only the most delicate could be digested at ai. Within the time mentioned several physicians treated me without giving relief. Nothing that I took seemed to do any permanent good until I commenced the use of Ayer's Sarsaparilla, which has produced wonderful results. Soon after commencing to take the Sarsaparilla, leaded as a firm of the same and the sam has produced wonderful results. Soon after commending to take the Sarsaparilla I could see an improvement in my condition. My appetite began to return and with it came the ability to digestall the food taken, my strength improved each day, and after a few months of faithful attention to your directions, I found myself a well woman, able to attend to all household duties. The medicine has given me a new lease of life."

WILKESPARIE, August 14—Charles Freley
and a number of other boys were bathing in the
creek at Huntsville, when they were surprised
by a bear which came out of a strip of the
woods near by. The boys, half frightened to
death, swam to the other side of the creek.
Old Bruin leisurely went over to where the
boys' clothes were reposing, scented around
awhile, and then retraced his steps and
lumbered off apparently disgusted.

The boys returned and got their clothes and
ran to town, giving the slarm. A party of six
hunters started after the bear this morning.
Bruin's tracks are plainly visible in the new
fields.
